

SEAWEED WOVEN DUTCH BLUE

SGWFABSWDB
$396.00

The unique woven seaweed range features a classic small-scale meandering seaweed motif in relief. The overall effect of the tone on tone colouring creates a tactile fabric that lends itself to fabric walling and drapery or indeed anywhere you need to add more texture to a scheme.

The versatile shades work effortlessly together with a range of styles from classic to contemporary. The fabrics have a natural composition with the addition of flax as well as a premium handle and weight, ensuring all the seaweed wovens are incredibly usable as both upholstery and drapery. All the fabrics in our wovens collection are made in the UK to the OEKO-TEX STeP standard which certifies the manufacturing process for environmentally friendly and socially responsible production facilities.
