

SALVESEN GRAHAM SIDE CHAIR

SGSDCHR
From $3,295.00

Mary and Nicole designed our Salvesen Graham Side Chair to be the chair that they were always searching for when decorating dining spaces, hallways and studies. A classic piece with beautiful details that are relevant today; our side chair features carved rings to the legs, solid brass castors, piped edges and a traditional silhouette.

A handsome and elegant piece, Mary and Nicole wanted to create a carver chair that would be equally at home at the top of a formal dining table or study, as it would in a more relaxed space such as a breakfast nook.

Each chair is handmade in the rural English countryside using both traditional and modern upholstery methods and materials. We chose a solid beech frame for strength and durability, and then use natural and recycled materials for wadding and stuffing along with coil springs for an extremely comfortable seat. Perfect for long dinners whiling away the hours with friends and family, or the ideal study chair that is kind to your posture.

Inspired by Mary and Nicole's love of cane furniture, we designed a bespoke solid brass bamboo handle that is an optional addition to the

op of the Salvesen Graham Side Chair. Crafted from unlacquered brass, the handle will gradually age into a beautifully soft, antiqued finish to complete a timeless piece of furniture designed to last and be enjoyed for many, many years.
